## **GOLF INSURANCE**

Over the last few years I have tried to impress upon members the importance of GOLF INSURANCE on the golf course.

We have experienced some minor incidents of people being struck by golf balls (fortunately none very serious) or tripping over trolleys.

Most of us appear to be covered by our household insurance, but please check carefully with your insurer as to the terms of your cover.

You need to check you are covered for loss of equipment and very important any injury to yourself or another golfer.

The use of golf buggies must also be covered.

This matter should be treated with some urgency it could save you a lot of money should you become involved in litigation.
